

## BABIES AND HEARING LOSS ORDER FORM

CHOICES for Parents has created a binder of information for parents whose infants have recently been diagnosed with a hearing loss. "Babies and Hearing Loss" contains facts about hearing loss, ways of communicating with your child, early intervention and education information, local and national resources, explanations of hearing aids and cochlear implants, working with your pediatrician, and a glossary of terms.

If your child has just been diagnosed with a hearing loss, fill in the form below and mail it to CHOICES for Parents and receive your free copy of "Babies and Hearing Loss." If you have questions, or need more information, support, or referrals, contact CHOICES for Parents (in English or Spanish) at 312.523.6400 or at [choicesforparents@yahoo.com](mailto:choicesforparents@yahoo.com).

Yes, please send me my free copy of "Babies and Hearing Loss" in:  
\_\_\_\_\_ printed version (English or Spanish) \_\_\_\_\_ CD-ROM (English or Spanish)
